## NOTICE OF PROPOSED ACTION

Bureau of Air Pollution Control

### PUBLIC NOTICE

Pursuant to Nevada Revised Statutes (NRS) Chapter 445B, the Nevada Administrative Code (NAC) Chapter 445B, and the Clean Air Act, the Division of Environmental Protection is issuing the following notice.

The Administrator received an application for a Class I Air Quality Operating Permit from the following applicant:

Barrick Goldstrike Mines, Inc.  
BCE Place, Canada Trust Tower  
Suite 3700, 161 Bay Street, PO Box 212  
Toronto, Ontario, M5J2S1

The project is the "Western 102 Power Project" located 15 miles east of Reno, Nevada in Storey County at the Tahoe-Reno Industrial Center. This permit action is for the issuance of a new Class I Air Quality Operating Permit. The Administrator has prepared tentative determinations regarding the Operating Permit that, in brief, includes the following equipment:

- Fourteen, Wartsila Natural Gas reciprocating internal combustion engines that each turn a generator to create electrical power. Each engine/generator set develops approximately 8.2 MW for a total facility output of approximately 115 MW.
- Each engine has its own selective catalyst reduction (SCR) system for the reduction of nitrogen oxides and an oxidation catalyst system for the reduction of carbon monoxide, volatile organic compounds and hazardous air pollutants.

On the basis of the preliminary review and the requirements of the NRS, the NAC, the Clean Air Act, a Nevada Ambient Air Quality Standards analysis and a Prevention of Significant Deterioration (PSD) Increment Analysis, the Administrator is hereby announcing his intent to issue a Class I Air Quality Operating Permit based on a review of the information, as proposed. A copy of the draft Operating Permit and the Director's Review is available for public inspection at:

Washoe County Library  
301 S. Center Street  
Reno, NV 89501  
(775) 327-8310
